Something to Write:

From your reading and initial research into the work of Salvador Dali, you are to explain through written annotation who is Salvador Dali and discuss his artwork in a short essay or piece of descriptive writing. All art A Level endorsements require you to research a range of artists and designers which inform your own artwork. This has to be recorded through in depth written responses and investigations.

To complete this written analysis you must ensure you use key art terms and advanced language. You need to explore the artwork produced and a brief history about the artist. You can choose to describe key pieces of artwork and personally comment on what you believe the artwork is about.
