

Careers Policy OSWBA Academy 2018-9

This policy provides a framework for meeting and achieving through Careers Education, Information and Guidance (CEIAG) the aims of:

- raising students' achievement
- supporting inclusion and promoting equality of opportunity
- encouraging participation in lifelong learning, including further and higher education
- developing enterprise and employability skills
- encouraging students to contribute positively to their communities

Main points

- This policy is based upon statutory guidance (DFE: Careers guidance and access for education and training providers Statutory guidance for governing bodies, school leaders and school staff January 2018) . This statutory guidance has been updated to expand on the aim set out in the strategy to make sure that all young people in secondary school get a programme of advice and guidance that is stable, structured and delivered by individuals with the right skills and experience.
- To achieve this aim, the careers strategy sets out that every school and academy providing secondary education should use the Gatsby Charitable Foundation's Benchmarks to develop and improve their careers provision. This statutory guidance has been restructured around the Benchmarks with information on what schools need to do to meet each one. The Gatsby Benchmarks are not a statutory framework but by adopting them, schools can be confident that they are fulfilling their legal duties: the existing duty to secure independent careers guidance and the new duty to provide opportunities to a range of providers of technical education and apprenticeships to access pupils to inform them about technical education qualifications or apprenticeships.
- The Benchmarks go further by defining all of the elements of an excellent careers programme, based on the best national and international research. Government recognises that the work needed to meet all eight Benchmarks will vary for individual schools. Government's expectation is that schools begin to work towards the Benchmarks now and meet them by the end of 2020. Compass is an online self-evaluation tool for schools to use to assess how their careers support compares against the Gatsby Benchmarks and the national average. Schools should baseline themselves using this tool, consider the opportunities to improve their careers programme based on their confidential results, and track their progress against the Benchmarks over time.
- The careers strategy explains that both co-ordinated external support and an appropriately skilled and experienced leader in school are important to help schools meet the Benchmarks. This statutory guidance explains what support will be made available to schools between now and 2020.
- The Careers & Enterprise Company (CEC) will provide external support to schools. In 2014, the Government established the CEC, to provide the strategic coordination for employers, schools, colleges, funders and careers programme providers to create high impact careers and enterprise support to young people (aged 12-18). The CEC's initial focus has been on employer

engagement, based on evidence about the importance of giving young people more opportunities to connect with employers of all sizes, and from all sectors. These encounters will inspire pupils and allow them to learn about what work is like, or what it takes to be successful in the workforce. The careers strategy confirmed that the CEC will take on a more ambitious role, building on their progress to date by coordinating support for schools across all of the Gatsby Benchmarks.

- The careers strategy sets out that every school needs a Careers Leader who has the energy and commitment, and backing from their senior leadership team, to deliver the careers programme across all eight Gatsby Benchmarks. Every school will be asked to name this Careers Leader. This requirement will be introduced in September 2018, by when more information and support will be made available.
- The way in which careers guidance will continue to be considered during Ofsted inspection is set out in Ofsted's Common Inspection Framework and School Inspection Handbook.
- A successful careers guidance programme will also be reflected in higher numbers of pupils progressing to positive destinations such as apprenticeships, technical routes, sixth form colleges, further education colleges, universities or employment. Destination measures provide clear and comparable information on the success of schools in helping all of their pupils take qualifications that offer them the best opportunity to continue in education or training. We publish KS4 and 16-18 (KS5) education destinations in performance tables on gov.uk.
