06 March 2020

Dear Parents/Carers,

Re: Coronavirus Advice

We are very keen to protect all members of our community as much as possible against infections, so would like to share recent information issued by the Government and NHS. The Government and NHS maintain that good hand hygiene is the best possible way to avoid infections such as Coronavirus, seasonal influenza, diarrhea and vomiting.

Please could you take time to read the following information and show your child/children the short 30 second video on the most effective way to wash hands so we can keep cross infection to a minimum;

<https://www.nhs.uk/live-well/healthy-body/best-way-to-wash-your-hands/>

In addition please find attached the most recent guidance from OAT and an additional link below to information on the Coronavirus from the Government;

<https://www.gov.uk/government/topical-events/coronavirus-covid-19-uk-government-response>

We will of course continue to keep you updated with any new information regarding infection control and in particular the Coronavirus.

Please do not hesitate to contact Mr D Pumphrey, Medical Officer, on 01902 493797 or e-mail enquiries@oswba.co.uk if you have any queries or are concerned regarding any of the information shared.

Yours sincerely,

Mr WR Hughes
Principal
